Report of the First Visit of the Co-ordination Committee for IIIT, Lucknow to Lucknow on 16/10/2017

The members who visited were as follows:-

- 1) Prof. Anupam, Prof. In Charge, IIIT Lucknow
- 2) Dr. Ashutosh Mishra
- 3) Dr. Asheesh Kumar, Interim Registrar, IIIT Lucknow

During the visit the members undertook two activities, namely:

- 1) Review of the ongoing Construction Works at Chak Ganjeria, the permanent site of IIIT Lucknow (Detailed in Part - I of the Report)
- 2) Explored the possibility of having IIIT Lucknow housed in an alternate temporary site, till the permanent site is readied and made occupiable (Detailed in Part - II of the Report).

Part-I : Review of the ongoing Construction Works at Chak Ganjeria

(The report consists of details on Construction Activity(A), Financial Situation (B), Decisions required (C&E), Big Picture (D), etc.)

The members visited the project site at Chak Ganjeria Farms, Sultanpur Road, Lucknow and met Project Manager M/s UPRNN Project Monitoring Consultancy (PMC) of IIIT-Lucknow alongwith his team. The members also took round of the ongoing construction buildings and observed as follows:-

A. Construction related observations

1. For First Phase following buildings were approved for construction, are as follows:-

(i)	Academic Block (G+6)	-	Area=22,500 sqm
(ii)	Administrative Block (G+4)	-	Area=1,875 sqm
(iii)	Hostel Block (G+5) 3 Bedded	-	Area=839 Sqm

Against the above, tenders were invited by UPRNN for construction of Academic Block only and accordingly the work was awarded to M/s U.P. Developers for constructing the Academic Block comprising of 22,500 sqm at the cost of Rs. 4911.77 Lakhs (Say Rs. 49.12 Crores)

2. While constructing the Academic Building, it was observed by the PMC (UPRNN) that Academic Building and Administrative Building were so structurally connected that construction of Academic Block alone in isolation was not possible. Therefore, it became imperative that UPRNN undertake the construction of Academic Block in conjunction with the Administrative Block i.e. for Total area 22,500 + 1,875 = 24,375 sqm.
3. It is pertinent to mention that when the initial concept of the campus was designed, it was more of "Horizontal" lay-out pattern which was later transformed into a "Vertical" campus lay-out pattern with a view to economize on land space, in view of provision for future expansion.
4. While affecting this transition from "Horizontal" to "Vertical" pattern and keeping the academic areas like class rooms, seminar rooms of constant size, the area in vertically patterned building increased by about 8.63% (from 24,375 sqm to 26,479.30 sqm.) on account of provisions required for Fire Escapes, Lifts and Stairs etc.

5. Also, though work for construction of Academic Building only was tendered and awarded by UPRNN to M/s U.P. Developers for 22,500 sqm, the drawings which were approved in various Governing Body meetings were approved for total plinth area of 26,479.30 sqm. where Administrative Block was G+4 storied and Academic Block G+6 storied.
6. In view of the above at present the construction of consolidated Academic and Administrative Block is in progress. In the same the roof slab of 2nd Floor of Admin Building and Academic Building are under the casting stage. Work of the hostel building has been completed upto the plinth level.
7. As on date Rs. 27 Crores only has been received by UPRNN towards this project and they are lagging by about 15 Crores as unpaid bills to the contractor. On account of the same, the work of construction was also held up on site for few months which has been requested by the Institute to be resumed.

B. Finances related observations

1. Against the sanctioned cost for First Phase (comprising of Academic cum Admin Block + One Hostel Building) for Rs. 72 Crores, a sum of Rs. 27 Crores only has been received by UPRNN so far.
2. Additional Rs. 15 Crores that were sanctioned by the Institute to UPRNN have not yet reached UPRNN because of confusion over the authorized signatories.
3. It is however also learnt that concurrently, for future transactions, the Governing Body of IIIT-L in its 6th meeting of 05/10/2017 vide Agenda Item No. 11 has resolved that only one consolidated account of IIIT-L should be maintained and that too at Allahabad with the Mentor Director and The Registrar, as its signatories.

After this is effected, (Consequent upon the approval of Minutes of 6th Meeting of Governing Body) then only the funds would effectively reach UPRNN. This is likely to take about two months' time.

4. Against the above backdrop, analysis of funds was undertaken by the Co-ordination Committee and it was observed as follows:-

For Phase-I works at the sanctioned cost of Rs. 72 Crores approx, the proportionate sums of money to be received from the three partners collaborating in PPP mode viz. Central Government (50%), State Government (35%) and Industry Partner (15%) following funds were received (towards building construction)

Partner's Name	Sanctioned Cost of Phase-I	Due proportion per Partner	Amount Released so far (Phase-I Construction)
Central Government	Rs. 72 Crores	Rs. 36 Crores	Rs. 16.44 Crores*
State Government		Rs. 25.2 Crores	Rs. 18.26 Crores
UP Electronics Deptt. (Industry Partner)		Rs. 10.8 Crores	Rs. 10.8 Crores

Includes Rs. 15 Crores that has been released by Central Government in August 2017, BUT yet to reach UPRNN

5. In view of the above, it appears reasonable to recommend to the Institute to request the Central Government and State Government partners to immediately release their balance portions of funds as follows:-

Central Government	-	Rs. 19.56 Crores
State Government	-	Rs. 6.94 Crores

- C. In light of the A & B above, the meeting with Sh. S.C. Rai, GM, Lucknow Zone-1, UPRNN was also undertaken during the visit. After intense deliberations, it was observed that UPRNN was ready to handover the first phase works in completed shape by June, 2018, PROVIDED

- (a) Full money (i.e. Rs. 72 Crores) for Phase-I works is transferred to UPRNN latest by December, 2017.

- (b) Clarifications on few drawings are made available to UPRNN, in parallel.
- (c) Explicit permission be granted to UPRNN to go ahead with the construction of 26,479.30 sqm. at the total cost of Rs 61.21 Crores in lieu of 24,375 sqm. area proposed earlier at the cost of Rs. 52.92 Crores . Also appropriate sanctions & sums of money for other associated works as per D below would be required.

(Imp - The current rates and Rupee figures shall remain valid only until June 2018, after which the cost escalation shall be allowable to the contractor).

- D. Out of the **Total Sanctioned Budgetary Allocation** of Rs. 128 Crores, this is the consolidated picture, as on date today (i.e. 16.10.2017):

Cost of Composite Academic and Admin Block	=	Rs. 61.20 Crores

The above **DOES NOT** include provision for:-

- Furniture

- Lab Equipments
- Second Phase Constructions

- E. Competent authority may like to decide as to what is to be included and what is to be excluded from the present scope of works in light of the funds availability vis-a-vis the cost of the various provisions.

Part-II : Exploring the housing of IIIT Lucknow at an alternative Temporary Site at Lucknow

Against the backdrop of the decision of the Governing Body, w.r.t. Agenda item no.4 of its 6th Meeting , to explore the possibility of housing IIIT Lucknow at an alternative temporary site, till the permanent site of the Institute is ready, the Co-ordination Committee, explored two options, as follows:

Option 1 - With prior information that AKT University (The erstwhile UP Technical University), had moved out of its temporary site at IET Lucknow, after vacating the IET premises, recently, to its permanent site, the members thought it fit to explore the possibility of using the same vacated place in IET, for use by IIIT Lucknow temporarily.

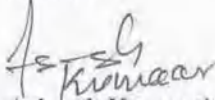

With this in mind, the members visited the AKTU vacated site at IET Lucknow. Upon visit, it was observed that in the vacated space, while two rooms had so far been occupied by the Administrative Officers of IET, others rooms had though been allocated to different departments, were yet to be occupied. Though the space in the said premises appeared to be usable for academic purposes, for Laboratory spaces, IIITL would still have to depend upon IET for using their labs on time sharing basis, may be against some suitable compensation. Use of IET premises as a temporary site would though facilitate in hiring of part time Faculty BUT hostel accommodation was not available on the IET campus, which was almost as important. Presently, to shift all IIIT L students from IIIT Allahabad to Lucknow, would require hostel space for 111 boys and 26 Girls (Total strength of presently enrolled three batches).

Further, IET being located in a well populated locality, possibility of having a compact hostel type accommodation premises outside IET premises, but nearby, was remote and if at all available, would be extremely expensive (in view of the limited budget available with IIIT L- PPP Mode).

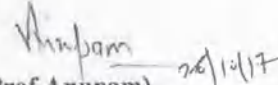

Option 2 - Ideally, the temporary site should be a unified site where Classroom, Lab, Office and hostel space , all should be available in a unified fashion or at best in close, unhindered and safe proximity. This could be possible at any of such Private Engineering College / Diploma College, who presently was not finding it feasible to run. During past year there were newspaper reports that owing to various reasons, some Private Engineering Colleges in the state were unable to attract good number of students, which led to the seats remaining vacant and now compelling the promoters to shut down their operations.

To explore the possibility of such an Institutional premises, Institute may think of giving out an advertisement calling for "Expression of Interest" from such promoters from Lucknow. Better still, if this was close to the permanent location - Chak Ganjeria, Lucknow-Sultanpur Road.

Competent authority may therefore like to be apprised and take its call accordingly, both in respect of **Part-I** as well as **Part-II**, above.

JUSTIFICATION REPORT

Name of Work : - Revised estimate for construction of First Phase Construction of IIT-PPP, Lucknow at Chak Ganjeria Farms, Lucknow

Preamble :- M/s UPRNN submitted its initial estimate of Rs. 21470.35 lakhs on 30.01.2014 for the plinth area of approx. 70000 sqm on the basis of circle rates of U.P. Lok Nirman Vibhag effective from 01.08.2013. Later, M/s UPRNN submitted its revised estimate vide letter no. 630/म. प्र. (तक.)/आगणन/रानिनि/2014 on 05.02.2014 of Rs. 15705.72 lakhs on the area approved in DPR i.e. for 55000 sqm. After approval of the committee the total cost for the above estimate was approved for Rs. 14416.33 lakhs vide letter no. 791/सोलह -1-2014-9 (बजट-4)/2014 dated 18.06.2014.

After approving the lay out and maps M/s UPRNN was nominated as Project Monitoring Consultancy (PMC) vide letter no. 856/सोलह -1-2015-14(5)/2013 टीसी/1 dated 10.06.2015. It was proposed to have an academic building and a hostel during first phase of construction and it was directed to execute the above work on tender basis. Subsequently, tenders were invited by M/s UPRNN on the basis of approved estimate and the bid of M/s U.P. Developers was found lowest. The Governing Body of IIT- Lucknow in its 5th meeting held on 13.06.2016 gave its consent to execute the above work from the lowest bidder and government vide its letter dated 11.8.2016 gave its approval to start the above work. In compliance of the same, the construction works of first phase started on 01.09.2016

Justification for revision:- The estimate was based on the plinth area rate of the year 2013 on the basis of D.P.R. provided by the State Govt. in which Academic, Administrative and Hostel buildings were proposed upto third floor. Later, on the directions of Governing Body, the building were converted into multi-storied buildings and after soil inspections from the structural consultant, the provision for pile foundation was made.

The land of Chak Ganjeria became low lying upto approx. 2.20 meter from the road due to development of Chak Ganjeria farms so the plinth of the building was also required to be increase by 2.20 meter. Consequently the water logging problem has arisen. Hence, earth filling becomes inevitable for proper drainage.

After discussion with the architect and authorities of IIT Lucknow, it was decided to do the minimum work of earth filling by approx. 1.20 meters to avoid water logging problem and also for proper drainage, the boundary wall of the campus was also to be built like retaining wall due to earth filling work. Initially, the height of boundary wall was taken as 1.80 meter but in view of location of the campus, total height of the boundary wall has become 4.00 meter. Thus, the total cost of the boundary wall has increased substantially due to piling works and its conversion into retaining wall.

In view of the above, the Governing Body is requested to consider the changes in the earlier provision of first phase considering the maps and actual geographical location of the land.

Payment to Forest Department:- Besides this removal of Babool and other plants was also required so the forest department gave its estimate which is also included in revised estimate.

Rates :- In the revised estimate for the first phase of constructions, the rates are taken from the Plinth Area Rate of Lok Nirman Vibhag as the tenders were invited on the rates of 2013. शासन के पत्रांक-856/सोलह-1-2015-14(5)/2013 टीसी/1 दि० 10.06.2015 के द्वारा संशोधित ले-आउट प्लान तथा मानचित्रों पर अनुमोदन प्रदान करते हुए उ०प्र०रा०नि०नि०लि० को Project Monitoring Consultant (PMC) नामित किया गया तथा प्रथम चरण में एकेडमिक भवन एवं एक हॉस्टल के निर्माण प्रस्तावित किया गया तथा प्रथम फेज के कार्यों को निविदा के माध्यम से करवाने हेतु निर्देशित किया गया। उक्त के क्रम में उ०प्र०रा०नि०नि०लि० द्वारा प्रथम फेज के कार्यों हेतु स्वीकृत आगणन के सापेक्ष एकेडमिक भवन तथा एक हॉस्टल भवन एवं सम्बन्धित वाह्य स्थल विकास के कार्यों हेतु निविदा आमंत्रित की गई जिसमें मेसर्स यू०पी० डेवलपर्स की निविदा न्यूनतम पाई गई। इसका प्रस्ताव बी०ओ०जी० के सक्षम प्रस्तुत किया गया। बी०ओ०जी० की पंचम बैठक जो दि० 13.06.2016 को सम्पन्न हुई में उक्त कार्य को न्यूनतम निविदादाता से कार्य करवाने की सहमति प्रदान की गई जिसे शासन के पत्र सं०-3226/सोलह-1-2016-9(बजट-4), दि० 11.08.2016 द्वारा कार्य करवाने हेतु अनुमति प्रदान की गई। उक्त के परिपेक्ष्य में दि० 01.09.2016 से कार्य प्रारम्भ करवा दिये गये हैं।

पुनरीक्षित करने का औचित्य:- उपरोक्त कार्य का आगणन वर्ष 2013 के प्लिंथ एरिया रेट पर स्वीकृत किया गया था जो कि शासन द्वारा उपलब्ध कराये गये डी०पी०आर० पर आधारित था। जिसमें एकेडमिक, एडमिनिस्ट्रेटिव, हॉस्टल भवन तीन तलों हेतु ही प्रस्तावित थे। दि० 03.11.14 को BOG द्वारा दिये गये निर्देशों के क्रम में भवनों का बहुमंजिला कर दिया गया कार्यस्थल की मृदापरीक्षण के उपरान्त structural consultant द्वारा pile foundation का प्राविधान प्रस्तावित किया गया।

क्रमशः-2

चक गंजरिया फार्म के विकसित हो जाने के कारण उपलब्ध भूमि सड़क से लगभग 2.20 मीटर नीची हो गई है जिससे भवनों के प्लिंथ की ऊँचाई भी 2.20 मीटर करना आवश्यक हो गया। चक गंजरिया का LDA द्वारा सम्पादित कराये गये विकास कार्य के पश्चात भूमि नीची हो जाने के कारण जलभराव की भी समस्या उत्पन्न हो रही है और ड्रेनेज की भी व्यवस्था करने हेतु परिसर में मिट्टी भराई किया जाना आवश्यक प्रतीत होता है। इस कारण वास्तुविद एवं आई0आई0आई0टी0 लखनऊ के निदेशक मण्डल से वार्तानुसार न्यूनतम मिट्टी भराई लगभग 1.20 मीटर लेने का निर्णय लिया गया है, जिससे जलभराव की स्थिति न उत्पन्न होने पाये तथा ड्रेनेज भी नेचुरल तरीके से हो सके। परिसर में मिट्टी भरान की स्थिति को देखते हुए बाउण्ड्रीवाल को भी रिटेनिंग वाल की तरह बनाना पड़ा। पूर्व में बाउण्ड्रीवाल की ऊँचाई मात्र 1.80 मी0 थी परन्तु बाउण्ड्रीवाल की ऊँचाई परिसर की स्थिति को देखते हुए सड़क के लेवल से 1.90 मीटर रखी गई है। जिसमें उसकी कुल ऊँचाई 4.00 मी0 हो गई है। तथा मिट्टी भराई होने के कारण बाउण्ड्रीवाल में रिटेनिंग वाल तथा पाइलिंग की आवश्यकता हुई है जिससे उसकी लागत में काफी वृद्धि हो गई है।

अतः भूमि की भौगोलिक स्थिति के अनुसार आगणन को पुनरीक्षित करने की आवश्यकता हुई है। प्रथम चरण के कार्यों में पूर्व में लिए गये प्रविधान (प्रारम्भिक स्वीकृति आगणन) एवं BOG द्वारा मानचित्रों में बदलाव एवं उपलब्ध भूमि की वर्तमान स्थिति को देखते हुए प्रथम फेज़ के कार्यों एवं परिसर क्रियाशील करने हेतु आगणन पुनरीक्षित किया जा रहा है।

भूमि :-

प्रस्तावित भारतीय सूचना प्रौद्योगिकी संस्थान, चक गंजरिया फार्म, लखनऊ में 50 एकड़ भूमि प्राविधिक शिक्षा विभाग, उत्तर प्रदेश के नाम उपलब्ध कराई गई थी। इसके अतिरिक्त चक गंजरिया फार्म के विकसित होने के उपरान्त परिसर सड़क से लगभग 2.20 मीटर नीचा हो गया। जिसमें मिट्टी भराई इत्यादि का भी प्राविधान करना आवश्यक हो गया है। उपलब्ध भूमि पर बबूल के जंगल इत्यादि उगे हुए थे जिनको हटाने के लिए वन विभाग द्वारा आगणन प्रस्तुत किया गया जिसका समावेश भी इस आगणन में कर लिया गया है।

मानचित्र :-

प्रस्तावित कार्य हेतु निर्माण निगम मुख्यालय के पत्रांक-73/कैम्प/म0प्र0(कन्स0)/रानिनि/13, दिनांक 10.06.2013 के अनुसार क्वालिटी बेरट सेलेक्शन (QBS) पध्ति के आधार पर वाह्य वास्तुविद चयन की प्रक्रिया पूर्ण कर कन्सल्टेन्सी इवैल्यूएशन कमेटी द्वारा मै0 कोटारी एसोसिएट्स, प्रा0लि0, G-65 कनाट सर्कस, नई दिल्ली को परियोजना हेतु वास्तुविद कन्सल्टेन्ट नियुक्त किया गया। परियोजना के मानचित्र मै0 कोटारी एसोसिएट्स, प्रा0लि0 द्वारा तैयार किये गये हैं। परियोजना के ले-आउट प्लान एवं मानचित्रों का प्रजेन्टेशन दि0 03.11.14 को अध्यक्ष/सचिव, उच्चतर शिक्षा विभाग मानव संसाधन विकास मंत्रालय शास्त्री भवन, नई दिल्ली में आहूत आई0आई0आई0टी0 लखनऊ की गवर्निंग बाडी की प्रथम बैठक में किया गया। उक्त बैठक में ले-आउट में कतिपय संशोधन कर हास्टल तथा स्टाफ आवासों को बहुमंजिला करने तथा प्राशासनिक भवन को भी भविष्य की आवश्यकता के अनुरूप वर्टिकल एक्सटेन्शन का प्राविधान करने हेतु निर्देशित किया गया। गवर्निंग बाडी की

Dear Sir,

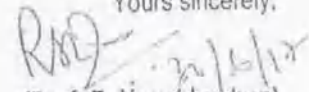

This is with reference to our meeting with the Principal Secretary, Technical Education, U.P. Govt., Lucknow alongwith other officials and visit of site under construction for IIIT-PPP, Lucknow, U.P. at Chak Ganjeria, Lucknow.

It has been noticed that there was no provision of ACs in the project plan of the building. You are aware that the Institution will impart education to the students of IT branch which requires large nos. of Computer Labs, Server and Networking Equipments etc. So it would be very difficult to run the classes and labs without provision of ACs. It has also been observed that the land of the construction site is low by approx. 2.20 mtrs. which may be prone to water logging during rainy season.

It is suggested that to avoid the problem of water logging some land scaping, work should be planned in such a way that minimum earth filling is required at the present site.

In view of the above, you are requested to kindly revise the estimate accordingly and submit to appropriate authorities for approval.

Yours sincerely,

(Prof. P. Nagabhushan)

- (b) **To consider the request of M/s UPRNN Limited regarding approval of PMC Charges**

The matter was deliberated by the Governing Body. Secretary State, Technical Education State Govt informed the members that for similar works, 12.5% charges are being claimed by UPRNN. After a detailed discussion and looking into how PMC charges are processed at other IITs or IITs, it was resolved to accept the proposed 5% PMC Charges + 1.5% architectural charges.

Dear Sir,

With reference to the letter no. IIITL/MD/2017/4 dated 24.10.2017, regarding Construction of IIIT Lucknow Campus at Lucknow, a visit to IIIT Lucknow was made on 10.11.2017 along with Registrar IIIT Allahabad and DR IIIT Allahabad as per the nomination by the Director MNNIT Allahabad. Based on the site visit and the documents provided, some important observations and recommendations were made (Annexure I).

- Subsequently, a meeting of the architect, project manager UPRNN, Interim Registrar IIIT Lucknow, associated faculty of IIIT Allahabad and experts from MNNIT Allahabad was arranged by Interim Registrar, IIIT-Lucknow on 29.11.2017 at MNNIT Allahabad. The recommendations already made were discussed in detail and the architect and project manager UPRNN were advised to review the requirement of earth (land) filling in light of suggestions made.
- Subsequently, the details were prepared and submitted by the architect through Interim Registrar, IIIT Lucknow vide letter no. IIIT-L/UPRNN/38/2017 dated 21.12.2017 (copy enclosed) to MNNIT Allahabad. Further, the IInd revised estimate for land filling was reduced to 83181.99 m³ (about 48.98% of the original quantity of land filling) vide letter no. 460/अ.परि.प्र. (IIT इकाई)/IIIT कार्य/ सन्निधि/2018 dated 31.01.2018 (copy enclosed).
- It has been observed that the IInd revised estimate for land filling includes filling around the buildings for Fire Safety and plinth protection & the land filling near the boundary wall. The proposal for the land filling around the buildings for Fire Safety and plinth protection is technically desirable. However, it is recommended that the land filling near the boundary wall may not be required as the boundary wall structure is already constructed and no distress in the existing structure due to differential earth levels have not been reported.
- It is also recommended that drawings submitted may also indicate locations of rain water harvesting recharge pits so as to bring clarity about the catchment area supported by each rain water harvesting recharge pit.
- Further it is also suggested that the savings made from the reduction in earth (land) filling quantity may be utilized in meeting the requirement of original scope in the design of academic/administrative block.

ANNEXURE-I

A visit to IIIT Lucknow was made on 10.11.2017 along with Registrar IIIT Allahabad and DR IIIT Allahabad as per the nomination by the Director MNNIT Allahabad. Dr. Goutam Ghosh could not accompany as he was pre occupied in Semester Examination at MNNIT Allahabad.

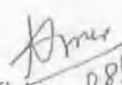

The following observations and recommendations are made based on site visit and documents provided:

Observations:

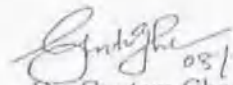

- The Project Site is located on a Non Residential Area with adjoining roads on two sides on a newly developed area therefore is not expected to receive municipal waste inflow from outside.
- The plinth levels of the buildings have been fixed with reference to the main roads which is 2.20m above NGL.
- The reduced levels provided by the PMC, indicate that the site is fairly a flat terrain with lower reduced levels when compared with adjoining main road level. [Trough topography]
- It has been reported that the road network, surface drainage system and sewer line network have not been designed.
- The total additional cost of the land filling is estimated at Rs 10.00 crore.
- The Academic and Administrative Block is under construction. As reported, the structure is five storey and seven storey respectively and the foundation constructed is for proposed five storey and seven storey respectively.
- The requirements of utilities and space for different buildings are under revision as reported.

Recommendations:

- The design of road network, surface drainage system and sewer line network is desirable to obtain an engineering solution to the problem of water logging during the rainy season as reported.
- The item of land filling needs review in light of the following :
 - The low lying land formation can be appropriately landscaped. Road network as well as pavement section may be designed to prevent excessive water logging during the rainy seasons. Active [limited pumping, discharge through storm water drains] and passive forms like rain water harvesting may be adopted for surface water drainage.
 - Drains along the roads may be designed to ensure efficient surface run off.
 - Exposed sewer line may be covered with soil formation. The drainage requirement is primarily for surface drainage therefore appropriate rainwater harvesting mechanism(s) may be incorporated.
 - The collective response of these provisions will lead to sustainable and cost effective engineering solution to the problem of water logging and flooding in the proposed campus.
- The requirements of utilities and space for different buildings may be formalized as per the users' recommendations meeting the essential requirements of campus functioning. Reduction in nos. of storeys of the building needs to be done carefully as it will lead to a loss in the structural value of the foundation which is designed for initially approved number of storeys.

Sub: Meeting on 26.03.2018 on IIIT Lucknow Project Site at Chak Ganjeria, Lucknow - Regarding

Dear Sir,

May kindly like to refer to the resolution taken in the Sixth Meeting of the Governing Body of IIIT Lucknow, that met on 5/10/2017. In respect of Agenda Item No 3(c) as stated below, the resolution taken is reproduced as below:

Agenda: To consider the revised estimate submitted by M/S Uttar Pradesh Rajkiya Nirman Nigam Limited, Lucknow, Project Monitoring Consultant (PMC) of the construction works of IIIT-PPP, Lucknow.

Resolution: The Governing Body resolved that the revised estimate should be relooked again meticulously by the committee consisting of Mentor Director, Representative of State Government, GM UPRNN, Architect and other Civil Engineer Expert either from IIT Kanpur or MNNIT Allahabad. The land filling proposal also needs to be rechecked by the same group.

Consequent upon the circulation of the draft minutes, IIIT Allahabad in its capacity of the Mentor Institution, undertook to write to the Director, MNNIT to nominate a suitable Civil Engineering Expert to look into the revised estimate of Earth Filling etc, as per the resolution of the Governing Body. The visit of the designated Expert Prof L K Mishra was undertaken in November 2017 to have a first hand look and feel of the prevailing site conditions. After further exchange of the required documents and follow up meetings between the MNNIT Civil Engineering team, IIITA Officials, Architect and the UPRNN (PMC) officials, the final report of the MNNIT Experts was received by the Institute in February 2018. The same was expeditiously sent to UPRNN, to have a look at the suggestions made from MNNIT Experts and to agree or contradict thereupon, through IIITA Communication dated 21/2/2018. Based upon the MNNIT Civil Engineering Experts report so received, it was also desired that UPRNN may now like to come out with a FRESH revised proposal such that the IIIT Lucknow project could be completed in a most befitting manner within the allocated 128 Crore Rupees. It was also desired that the Premises should be so managed and completed within the present budgetary allocation that whatever portion can be made, a larger part of it

should be functional from institutional point of view, so that Institute may look forward to being occupied as soon as possible.

With a view to emphasise the same, a team of the Registrar (I), Head IT and the Deputy Registrar (Fin & Acc.) also held an onsite meeting with the Project Manager, UPRNN and the Project Architects on 7/3/18. After the meeting the Project Manager, UPRNN and the Architects have desired to have time till about 15/3/18 to come out with a FRESH Plan and Estimation, with the objective of coming out with a functional and occupiable building by IIIT Lucknow, within the allocated budget of Rs 128.00 Crores. The budgetary allocation also includes the estimate of about Rs 13.00 Crores for procurement of Computers, Servers, Furniture / & Furnishings, Equiping of Laboratories and Hostels, etc.

Accordingly, I today write to you to spare your valuable time to have a look at the FRESH revised proposal on IIIT Lucknow Project site at Chak Ganjeria, Lucknow, on 26/3/2018 at about 12 noon. I am also inviting the other members of the committee, as per the resolution of the Governing Body, so that the designated committee may arrive at a comprehensive and unified plan, to make the IIIT Lucknow building completed and occupiable to the nest possible limits.

I therefore look forward to your personal participation and enriching contributions, in the context. A line in confirmation shall however be highly appreciated.

With Regards,

Yours Sincerely,

P. Nagabhushan

The List of participants who attended the meeting in person is attached at Annexure-I. Directors of IITs attended the meeting through VC.

At the outset, Education Secretary, who chaired the meeting welcomed all the participants and stated that the meeting has been scheduled to monitor the progress of infra projects of IITs. The Chairman observed that the progress of infra project works in IITs is slow and we have to push it up. The Chairman shared his vision about completion of infra project works for IITs specially which are in Public Private Partnership mode (PPP). He also briefed about Higher Education Funding Agency (HEFA) which would finance the infrastructure requirements of the higher educational Institutions.

1. Certain key issues in regard to IITs established in PPP mode deliberated in the meeting are summarized below: -
 - (i) The Chairman stated that the meeting has been scheduled to make standards to be followed for infra projects and asked the participants to share their views about it. After deliberation, keeping the Cabinet Note in view, it has been decided to follow the below standards before finalizing the Master plan: -
 - (a) Campus should be built for 1200 students.
 - (b) Infrastructure including playground should be built to the extent of maximum of 300 sq. feet per student.
 - (c) Capital cost of each Institute should not go beyond approved ceiling i.e 128.00 crore. Any escalation in the Capital cost will be borne either by the institute by their internal resources or by the Industry partner.
 - (d) Master plan should be prepared in a manner that campus has a good design along with the facilities of water harvesting, green building, energy saving etc.

- (*) submit a timeline for finalizing the Master Plan, PMC and nomination of construction agency along with the deadline of commencement & completion of civil work to prevent the cost overrun of the project. (44)
- (iii) The Chairman suggested that all IIITs, except IIITs at Guwahati, Lucknow, Sri City (Chittoor) and Kottayam where the construction is in advance stage, send a detailed proposal for applying in HEFA with all relevant documents so that the Institutes will not face any difficulty due to paucity of funds. The proposal should be sent by end of Apr'18 to the ministry.
- (iv) The Ministry should give the priority to release of grants to the IIITs at Guwahati, Lucknow, Sri City (Chittoor) and Kottayam where the construction is in advance stage so that they could finish the construction works in time.
- (v) Further, Mentor Directors of IIITs at Sonapat, Kota, Bhopal and Ranchi expressed their issues with the concerned State Govt. In this regard, the Chairman advised to call the concerned State Govt. officials to short out the issues.
- (vi) It is stated by the ministry that if layout/ Master plan is approved by the BoG, it should not come back to the ministry again for approval again.

2. IIITDM Jabalpur and Kancheepuram

The Chairman directed Director (IIITs), Under Secretary (IIITs) and ADG (CPWD) to make a visit at the IIITDM Jabalpur before the end of April, 2018 since there are lot many issues of the institute with CPWD. Directors of these Institutes have been advised to go for HEFA and repay them from their internal revenue generation. Also the EFC proposal to be prepared in consultation with IFD on priority. Arbitration cost also to be added in the EFC proposal of Kancheepuram.

- (45)
- (i) The Chairman instructed the mentor Director to take necessary steps for shifting in permanent campus at Kurnool. To make it possible, it has been advised to expedite the process of release of grants to IITDM Kurnool in Capital Head for equipment, furniture etc. other than civil works.
- (ii) Mentor Director has been suggested to submit a proposal, based on the recommendation of EFC, for applying in HEFA.

The meeting ended with thanks to the Chair

(Para no.)

- (i) Accordingly, the members present were apprised that Consequent upon the circulation of the draft minutes, IIIT Allahabad, in its capacity of the Mentor Institution, had undertaken to write to the Director, MNNIT to nominate a suitable Civil Engineering Expert to look into the revised estimate of Earth Filling etc, as per the resolution of the Governing Body. The visit of the designated Expert Prof L K Mishra was undertaken in November 2017 to have a first hand look and feel of the prevailing site conditions. After further exchange of the required documents and follow up meetings between the MNNIT Civil Engineering team, IIITA Officials, Architect and the UPRNN (PMC) officials, the final report of the MNNIT Experts was received by the Institute in February 2018 (Copy attached as Ann.1). The same was expeditiously sent to UPRNN, to have a look at the suggestions made from MNNIT Experts and to agree or contradict thereupon, by IIITA. Based upon the MNNIT Civil Engineering Experts report so received, it was also desired that UPRNN may now like to come out with a FRESH revised proposal such that the IIIT Lucknow project could be completed in a most befitting manner within the allocated 128 Crore Rupees. It was also desired that the premises should be so managed and completed within the present budgetary allocation that whatever portion can be made, a larger part of it should be functional from institutional point of view, so that Institute may look forward to being occupied as soon as possible.
- (ii) With a view to emphasise the same, a team of the Registrar (I), Head IT and the Deputy Registrar (Fin & Acc.) also held an onsite meeting with the Project Manager, UPRNN and the Project Architects on 7/3/18. After the meeting the Project Manager, UPRNN and the Architects have desired to have time till about 15/3/18 to come out with a FRESH Plan and Estimation, with the objective of coming out with a functional and occupiable building by IIIT Lucknow, within the allocated budget of Rs 128.00 Crores. The budgetary allocation also includes the estimate of about Rs 13.00 Crores for

procurement of Computers, Servers, Furniture / & Furnishings, Equiping of Laboratories and Hostels, etc.

- (iii) Against the above backdrop, UPRNN had worked out a FRESH estimate for Rs. 129 Crores, as at **Annx.2.**
- (iv) The presented estimate includes the almost completed super structure of the composite Academic-cum-Administration Block (19,818.40 Sq.mts.) and Residential hostel for Boys and Girls (4177.51 Sq mts.). A total of thus 23,996 Sq mts say 24,000 Sq mts. The Super structure has a further provision of another two Floors in one wing of the building that would add up to 6320 Sq mts. if so required in future. Playfield area envisaged is 18,400 Sq mts.
- (v) In keeping with the broad norms that were set in the Video Conferencing meeting Chaired by the Secretary, MHRD on 23/3/18, that the present campuses of IITs PPP should be envisaged for accomodating about 1200 students with 300 Sq Ft. space for each student, the present scope of works for IIT Lucknow has been restricted to that of 2,58,240 Sq Ft. (Equivalent to 24,000 Sq Mts.) with a provision for further expansion.
- (vi) The present scope of works, since Includes, few general Campus facillies of essential nature like Boundary Wall of the entire Campus, Substation, DG Sets, Tube well, Inter Connecting Roads, horticultural provisions, etc, the construction of complete Faculty & Staff Housing (Only for skeletal and emergency staff provision is included in present scope), additional Girls/ Boys Hostels, Auditorium, etc has to be put on hold at present. Also in order to have a secure functional campus for the initial batches, within the current allocation of Rs 128 Crs., arrangement for finishing the building to upto G+2 Floors has been envisaged. For the rest the super-structure is built, which may be finished and furnished subsequently.
- (vii) The members went through the various provisions made and also undertook a visit to the building to have a glimpse of the ongoing as well as the completed works. The members also discussed the project progress with the UPRNN Engineers and officials on site about the completion time frame. Upon being apprised that subject to the smooth fund flow, the building could be handed over in latest by January 2019. Upon this the members tried to emphasise upon the officials to hasten the progress and see that the building was available before that, as funds were not a constraint at present.
- (viii) While going through the estimates, the members were explained by the UPRNN explicitly about the quantities been taken by them now after receiving the Civil Engineering Experts reports. It was apprised that the quantities had been revised to limit to an expenditure of Rs. 4.28 Crs. from the earlier one of Rs. 10.43 Crs. The revised estimates included only the earthwork around the perimeter walls of the Academic - cum-Administrative Block, Hostel building and the connecting Roads (Pertinent to mention that the allocated site is about 2.2 mts. below the adjoining Road levels and therefore the need for earth filling item). The Architect was advised to include item by item justification for the entire earth filling work . UPRNN was further advised to ensure that all statutory compliances pertaining to earthwork and fire fighting must be ensured by them, to which they assured.

The meeting then concluded with an agreement on the fresh proposal submitted by UPRNN, as attached already at **Ann.2.**

Dear Sir,

With reference to the letter no. IITL/MD/2017/A dated 24.10.2017, regarding Construction of IIT Lucknow Campus at Lucknow, a visit to IIT Lucknow was made on 10.11.2017 along with Registrar IIT Allahabad and DR IIT Allahabad as per the nomination by the Director MNNIT Allahabad. Based on the site visit and the documents provided, some important observations and recommendations were made (Annexure I).

- Subsequently, a meeting of the architect, project manager UPRNN, Interim Registrar IIT Lucknow, associated faculty of IIT Allahabad and experts from MNNIT Allahabad was arranged by Interim Registrar, IIT-Lucknow on 29.11.2017 at MNNIT Allahabad. The recommendations already made were discussed in detail and the architect and project manager UPRNN were advised to review the requirement of earth (land) filling in light of suggestions made.
- Subsequently, the details were prepared and submitted by the architect through Interim Registrar, IIT Lucknow vide letter no. IIT-1/UPRNN/38/2017 dated 21.12.2017 (copy enclosed) to MNNIT Allahabad. Further, the 1st revised estimate for land filling was reduced to 3181.99 m³ (about 48.98% of the original quantity of land filling) vide letter no. 460/अ.स. (IT 303)/IIT अरु/ अरु/2018 dated 31.01.2018 (copy enclosed).
- It has been observed that the 1st revised estimate for land filling includes filling around the buildings for Fire Safety and plinth protection & the land filling near the boundary wall. The proposal for the land filling around the buildings for Fire Safety and plinth protection is technically desirable. However, it is recommended that the land filling near the boundary wall may not be required as the boundary wall structure is already constructed and no distress in the existing structure due to differential earth levels have not been reported.
- It is also recommended that drawings submitted may also indicate locations of rain water harvesting recharge pits so as to bring clarity about the catchment area supported by each rain water harvesting recharge pit.
- Further it is also suggested that the savings made from the reduction in earth (land) filling quantity may be utilized in meeting the requirement of original scope in the design of academic/administrative block.

ANNEXURE-I

A visit to IIT Lucknow was made on 10.11.2017 along with Registrar IIT Allahabad and DR IIT Allahabad as per the nomination by the Director MNNIT Allahabad. Dr. Goutam Ghosh could not accompany as he was pre occupied in Semester Examination at MNNIT Allahabad.

The following observations and recommendations are made based on site visit and documents provided:

Observations:

- The Project Site is located on a Non Residential Area with adjoining roads on two sides on a newly developed area therefore is not expected to receive municipal waste inflow from outside,
- The plinth levels of the buildings have been fixed with reference to the main roads which is 2.20m above NGL.
- The reduced levels provided by the PMC, indicate that the site is fairly a flat terrain with lower reduced levels when compared with adjoining main road level. [Trough topography]
- It has been reported that the road network, surface drainage system and sewer line network have not been designed.
- The total additional cost of the land filling is estimated at Rs 10.00 crore.
- The Academic and Administrative Block is under construction. As reported, the structure is five storey and seven storey respectively and the foundation constructed is for proposed five storey and seven storey respectively.
- The requirements of utilities and space for different buildings are under revision as reported.

Recommendations:

- The design of road network, surface drainage system and sewer line network is desirable to obtain an engineering solution to the problem of water logging during the rainy season as reported.
- The item of land filling needs review in light of the following :
 - The low lying land formation can be appropriately landscaped. Road network as well as pavement section may be designed to prevent excessive water logging during the rainy seasons. Active [limited pumping, discharge through storm water drains] and passive forms like rain water harvesting may be adopted for surface water drainage.
 - Drains along the roads may be designed to ensure efficient surface run off.
 - Exposed sewer line may be covered with soil formation. The drainage requirement is primarily for surface drainage therefore appropriate rainwater harvesting mechanism(s) may be incorporated.
 - The collective response of these provisions will lead to sustainable and cost effective engineering solution to the problem of water logging and flooding in the proposed campus.
- The requirements of utilities and space for different buildings may be formalized as per the users' recommendations meeting the essential requirements of campus functioning. Reduction in nos. of storeys of the building needs to be done carefully as it will lead to a loss in the structural value of the foundation which is designed for initially approved number of storeys.
