Director's Message

Indian Institute of Information Technology, Lucknow is an institute of national importance. IIITs have a tradition of producing best-in-class human resources in IT and connecting multi-dimensional aspects of IT such as manufacturing, design, and management. IIIT Lucknow is an emerging institute that takes this initiative further in leaps and bounds by providing world-class education in Engineering and Technology. We have a team of best educators and industrialists who teach contemporary topics and bring real-life scenarios to the classroom. With this kind of training, our students enter the real world with full awareness and become adept in problem-solving.

Dr. Arun Mohan Sherry,
Director,
IIIT Lucknow

Graduating from a college is like a venture where students invest their efforts and dreams in anticipation of a life-transforming future. It is, therefore, essential that they choose the right career path. The academic and non-academic facilities provided at the institute has boosted its credibility, and hence it has seen a jump in the closing rank of entrance seats.

Our campus is based in the IT city of Lucknow which will soon be alive with multinational companies. We have invited many companies to set up their centres in our campus too and we are open to more such collaborations in near future. We provide a conducive environment to all students and we have a zero-tolerance policy against any kind of ragging practice or gender insensitivity.

I invite young and aspiring individuals to connect with us. I also congratulate all the students who chose to learn further and achieve more. Cheers to all of you who took the first step to enriched experience.
